

FINNISH LANGUAGE TEST AT VOCATIONAL EDUCATION CENTRE SEDU

For all applicants to Sedu whose mother tongue is not Finnish, a language test is organized before granting a student place. The applicants are invited to the test by mail or phone. In the invitation they are told about the time and place of the test.

Why a language test?

- At Vocational Education Centre Sedu teaching and instruction are for the most part given in Finnish.
- Sufficient language competence is necessary for succeeding in studies and observing safety at work regulations.

What is the test like?

The test has 4 parts which are:

- listening comprehension
- reading comprehension
- written assignments
- interview.

To complete all the test parts takes 2–3 hours. If there are several participants to the test during the same day, they have to be ready to wait for their turn to the interview.

Evaluation of the test

The language test is evaluated on the scale **pass/fail**. A failed test can be taken again during the next joint application system.

Information on the test results

Those who take the test are given an opportunity to know about their test results. Information on the date of the test result is given to the applicants on the testing day.

Additional information

Additional information on the test can be received from student counselors of Sedu and organizers of the test. Vocational Education Centre Sedu, Monimuotoiset opinpolut "Diversed study paths"/ project manager Tiina Harju, tel. 040 830 2276, tiina.harju@sedu.fi
